Most of us assume our tap water is pure and clean, **BUT** is it??

Many contaminants are tasteless and invisible, and now even the chlorine used to disinfect water has been identified as a possible health hazard. The only way to guarantee your water quality is to look after it yourself with a Reverse Osmosis Drinking Water System.

Aquarius Drinking Water System

- Clean, pure water for drinking & cooking
- Ideal for low sodium diets
- Replaces heavy water bottles
- Costs pennies a glass

We will create a treatment system custom designed for your water's needs, keeping the system as simple and inexpensive as possible, while ensuring the problems are solved!

TESTIMONIALS

Terry Murray - I have very poor well water. Aquarius diagnosed the problems then designed and installed the filtration. He regularly monitors the system and I am impressed with his genuine concern in solving my complex water issue. (photo above)

Bonnie Wallis - I encourage the use of Aquarius's products and appreciate the knowledge and expertise of Cody as a businessman!!

Sharon McArthur - I was very happy to deal with Cody. He was very punctual and got right to the bottom of my water issue right away.

Over 500 clients spread across Vancouver Island.
